MIAMI (WSVN) -- A non-profit organization is offering a big reward for a tip in the illegal slaughter farm trade.

After a six-month investigation, the Animal Recovery Mission organization uncovered a case of extreme animal cruelty.

ARM and Palm Beach County officials raided three illegal slaughter farms earlier this week. In addition to animals being kept in terrible conditions, they also found a large-scale, black market horse meat trade.

ARM is now offering a \$15,000 reward for information leading to the arrests and convictions of those responsible for the slaughter of horses and sale of horse meat.
