**CONFIDENTIAL
EVIDENCE**

The Animal Recovery Mission (ARM), is a vanguard investigative animal welfare organization that was developed in 2010 by Richard Couto, shortly after he was exposed to one of Miami's darkest and most brutal animal cruelty operations. Upon this discovery of illegal animal slaughter farms and the black market horse meat trade, Couto, also known as 'Kudo,' invoked his vision of exposing and implementing solutions for extreme criminal acts towards animals into reality and created an unstoppable team who are dedicated to our organizations cause.

ARM Investigations has been carefully constructed as a direct-action organization. We conduct innovative investigative tactics to gather compelling evidence. ARM collaborates with local law enforcement, State attorneys, environmental protection agencies and The Animal Legal Defense Fund to produce concrete evidence to put an end to criminal acts involving animal torture.

ARM has since become the foremost expert organization in illegal horse slaughter. We specialize in condemning illegal animal slaughter farms in the United States. Our investigations, however, are not limited to slaughter farms as we are also actively investigating the black market horse meat trade, bestiality, underground animal fighting rings, fox & coyote penning games, and bear bile farms, to name a few, as well as the preservation of Wild Mustangs.

Succeeding in our investigations and exposing the truth as well as the eradication of these illegal practices have produced life changing results and permanent solutions. ARM's goals and vision is to constantly strive to raise the bar for the welfare of animals and to prevent and reduce their pain, fear and suffering.

As an organization we strive to be the defending force for destitute animals and to make significant improvements in how they are treated by exposing the truth, implementing laws to protect and educating the public on these illegal and barbaric practices. ARM prides it self on taking up the challenges that no one else will.

Our mission is to be an uncompromising defending force for the welfare of animals, in addition to putting an end to and preventing pain, suffering and torture inflicted as a result of inhumane practices.

SUMMARY OF INVESTIGATION

During this investigation, ARM investigators were able to obtain evidence of animals inhumanely slaughtered, contraband sales, horse meat, animal fighting, narcotics, and guns.

ARM Investigators discovered an illegally operated slaughter farm within the C9 Basin. The slaughter far was located at 13600 NW 178th St, Hialeah FL 33018, from now on referred to as "Location 1". There were no posted signs or marking near the property to show that it was an active business. The slaughter farm was located NW 178th St on the Northside of the road, and the property was enclosed by a chain-link fence with a black tarp to mark the presence of the farm. This slaughter farm later moved 13000 SW 194th Ave, Miami FL 33196, from now on referred to as "Location 2". It was located about 39 (29.2 Miles) minutes south off of State Road 997 AKA Krome Avenue. A third location visited during this investigation was Northwood Apartments situated in 1055 W 68th Street, Hialeah, FL 33014, from now on referred to as "Location 3".

Operation Genesis "Location 1" is in the C9 Basin. It has been the primary source of horse carcasses and butchered remains dumping in the C9 Basin, which has been investigated by ARM and Miami-Dade Law Enforcement. ARM investigators have found multiple horse carcasses and butchered remains near this location. Local and national media have highlighted many of these finds. After Operation Genesis moved to "Location 2", no horse carcasses and butchered remains have been spotted in the C9 Basin.

Operation Genesis is not only selling horse meat in Miami-Dade (which ARM purchased for evidence purposes) but that they are also breaking into properties, stealing and butchering people's horses. There is also a link between Operation Genesis and the West Coast Florida horse killings.

On December 23, 2018, at approximately 230 pm, ARM investigators posing as customers entered "Location 1" through an open gate and made contact with a Hispanic male, the Hispanic male identified himself as Sergio, the farm owner. Investigators observed multiple animals on the property. There were also approximately 15 customers gathered in the fenced-in lot waiting to purchase an animal to slaughter. Customer and workers alike were consuming alcohol.

Investigators walked throughout the property and observed several pigs living within a small wooden enclosure. On the West end of the property, there was a large fenced area containing multiple cows, sheep, and one horse. Animals appear to be sick and malnourished.

Investigators, acting as customers, spoke to Sergio and picked out one pig to be slaughtered. Sergio explained that it would be approximately 45 min until he could get their pig. In the meantime, investigators observed several animals being slaughter for other customers.

Sergio and his workers slaughtered nine animals (one cow and eight pigs) in front of investigators, and at no time did employees attempt to make the animals insensible to pain as defined in the humane slaughter act either by gunshot or electric prod. The workers tied a small cow to a fence post. A Hispanic male pulled its tale back so that its neck could be exposed and to restrict its movement. A second Hispanic male used a knife to slice into the neck of the cow. The cow then began to struggle for its life by moving inward and outward. The cow shoed clear signs of life for approximately 7 min.

The eight pigs the investigators witnessed being killed, including the one purchased by them on this date, were all killed in the same manner. An unknown Hispanic male, and the owner (Sergio), entered into the pigpen with a knife. After capturing the pigs by hand, they would thrust the knife into the pig's stomach or neck. They would then release the pig and allow it to run free within the pen as they grabbed the other pigs and continued the process.

On multiple occasions, the two males would have to catch a pig, which they had already stabbed and delivered a new stab to the stomach or neck area to kill the animals. Each time the pigs would scream in pain as they bled out.

On December 30, 2018, at approximately 130 pm, ARM investigators returned to the illegal slaughter farm on "Location 1" to purchase an additional animal for slaughter. On this date, there were only approximately four customers inside the property.

Investigators spoke to Sergio and requested a goat for slaughter. Sergio, along with another Hispanic male, entered into the large fenced-in area and retrieved a small goat. They carried the goat by lifting it by its horns and tail and moved the to the slaughter area behind the wooden pens. At this point, The goat exchanged hands to a third Hispanic employee.

The unknown Hispanic male used a large knife to cut into the neck of the goat. The goat immediately screamed in pain as the blade continued to slice into his throat. As the goat bled out on the ground, it showed clear signs of life as it continuously moved its legs and body. At no time did the Hispanic male attempt to make the goat insensible to pain.

On this date, investigators also witnessed the killing of an additional pig for a customer. An unknown Hispanic male retrieved a small pig from a white transport trailer and used a knife to cut into the neck of the pig. The pig screamed in pain and continued to show clear signs of life as it moved its body. At no time did the Hispanic male attempt to make the pig insensible to pain.

Costumers and workers were consuming alcohol, and Sergio offered cocaine to the ARM investigators.

On September 19, 2019, at approximately 1 pm, two ARM investigators posing as customers returned to "Location 1" to find a fighting rooster boarding facility, with around 30 roosters belonged to several costumers. There were also two horses, one cow, three large pigs, and approximately seven small pigs. An unidentified Hispanic male greeted the ARM operatives. He wore a bright green/yellow long sleeve shirt after this refereed to as "The Kid," who was clearing greenery off the fence and cleaning/rearranging the rooster cages. "The Kid" showed pigs living in complete darkness on their feces to the ARM investigators. Sergio and The Kid confirmed animals are still being sold/slaughtered. The Kid tried to sell the ARM operatives .45 Caliber gun for around \$500.

On this date, there were six people at "Location 1". Sergio (the owner), The Kid (Sergio's Worker), a previous customer, an unidentified male #1 working on a horse's hooves, unidentified male #2 smoking a cigar who had his roosters boarding there, and unknown male #3 knows as Gallero Cubita who operates of another fighting rooster boarding/sparring/

fighting facility (See Operation Gallero).

On November 14, 2019, at approximately 130 pm, two ARM investigators posing as customers returned to "Location 1". We were greeted through the gate by an unidentified Hispanic male (UM #1) and The Kid, whom both look sweaty and had visible blood on their clothes and body, appearing to be in the middle of slaughtering an animal. The Kid called Sergio, who then spoke to one of the ARM investigators and confirmed the Thanksgiving sale of animals for slaughter. On this date, ARM investigators also found out "Location 1" would be moving to "Location 2" due to the "city" ordering "Location 1" to be vacated because the city discovered their fighting rooster boarding and breeding operation.

On the afternoon of November 23, 2019, two ARM investigators posing as customers returned to "Location 1" to find the place empty with burned down structures and no signs of animals. ARM investigators believed the slaughter farm had moved to "Location 2".

On the afternoon of December 23, 2019, two ARM investigators posing as customers went to "Location 2". Upon arriving, we met a beige gate. An ARM investigator called Sergio, a woman picked up (Sergio's wife) and instructed the investigators to slide the gate open and come in. There were about a dozen costumers gathered waiting to purchase an animal for slaughter.

There were also 3 or 4 (Check) workers, one of them being Sergio, the owner, and The Kid. Sergio was wearing a red shirt with a large white logo on the front. The costumers and workers were consuming alcohol. There was also what appeared to be contraband sales in the form of sneakers and fireworks. This property has two living quarters.

Investigators walked around the property and observed approximately 20 to 30 pigs and about a dozen sheep and goats, one cow, and three horses. The animals appeared to be sick and malnourished.

The smalls pigs were in two different trailers with no visible signs of food or water. One of the trailers had visible blood splatter on the inner walls, leading the ARM investigators to believe the killing took place inside. The other trailer had a small round hay bale feeder boarded with some plywood. The walls created by the plywood also had visible blood splatter, again leading ARM investigators to identify another kill site. Sergio kept the large pigs in a big chain-link cage located behind the only house on the property at the time in a cage.

The ARM operatives, acting as customers, spoke to Sergio and picked out one pig to be slaughtered. Sergio explained it would be a while. In the meantime, the investigators observed that workers kill other customers' animals. The workers killed four pigs in front of the investigators, and at no time did the workers attempt to make the pigs insensible to pain.

Also, the workers butchered one large cow in front of the investigators.

Sergio shot one large pig with a single shot of a .22 caliber rifle from outside the cage where the large pigs were. The pig was still alive when The Kid stabbed the pig in the neck with a knife. The Kid brought the pig to the butchering area located next to the house as it bled out.

The investigators witnessed the slaughter of three small pigs, including the one little pig purchased by them on this date, in the same manner. Sergio entered into the round hay bale feeder with a knife. After capturing the pigs by hand, Sergio would thrust the knife into the pig's neck. Sergio would then release the pig and allow it to run free within the small round hay bale feeder as he grabbed a different pig. On one occasion, Sergio grabbed a pig, which he had already stabbed and delivered a new stab. Afterward, Sergio let the pig run free throughout the property as it bled out. This one pig was roaming for approximately 10 minutes when The Kid went to it and delivered an additional third stab to the pig.

The investigators witness all four pigs screaming in pain as they were stabbed and bled out.

On the afternoon of December 30, 2019, one ARM investigators posing as customers returned to "Location 2". There were fewer people than on the previous visit on December 23, 2019. Sergio was wearing a red shirt with dark blue stripes and had one worker, an unidentified Hispanic male wearing an orange shirt and cowboy hat after this refereed to as "The Cowboy." The Kid did not show up until later in the investigators' visit. Customers and workers were consuming alcohol, and children around the age of 10 to 15 were present.

The small pigs were in one trailer, and the trailer with the little round hay bale feeder was unused. The larger pigs were in a makeshift pen to the left of the house, in front of a fence.

The ARM operatives, acting as customers, spoke to Sergio and picked out one sheep to be slaughtered. The investigator observed the slaughter of other customers' orders. The workers killed four animals (two pigs and one sheep) in front of the investigator and at no time were the animals made insensible to pain. The Cowboy killed two large pigs, in the same manner, Sergio killed the pigs on December 23, 2019. The Cowboy entered the makeshift pen with a knife. After capturing the pig, he thrust the knife into the pig's neck. The Cowboy would then release the pig, and the pig would thrash around the muddy wet ground, blood and mud thrashing everywhere.

The investigator heard what appeared to be the slaughter of one small pig, as the little pig screamed. Whereafter, the investigator observed the body of said small pig. Sergio shot the sheep with the same .22 caliber rifle he used on the large pig on December 23, 2019, visit. The investigator observed as Sergio, and The Kid chased the sheep around the property. Sergio shot at the sheep twice. It is uncertain whether both shots were a hit, but after the second shoot, the investigator observed blood coming out of the sheep's mouth.

The Kid proceeded to drag the sheep to a large tree in the kill/butcher area on the left side of the house. The Kid, with the help of two other unidentified males, tied the sheep that was still alive and fully conscious by one hind-leg and hung it on a branch of the tree. The investigator sees the sheep thrashing around when The Kid thrust a knife into the sheep's neck.

On January 30, 2020, at approximately 130 pm, two ARM investigators posing as customers returned to "Location 2". Sergio was not there to meet us, but the investigators observed two horses roaming the property.

On January 31, 2020, at approximately 230 pm, two ARM investigators posing as customers returned to "Location 2". There were four visible persons on the property; Sergio, The Kid, one boy and girl both around ten years of age. "Location 2" continued to grow as Sergio, and The Kid were putting up a new chain-link fence behind the house with a greenish tarp to mask the presence of animals. The investigators walked throughout the properer and observed two pigs, two puppy dogs, two horses, and one cow. Posing as costumers, the investigators picked out a small pig for slaughter. "The Kid" then followed in slaughtering the pig with the help of the ten-year-old boy in the same manner as in the investigator's previous visits. The ten-year-old boy hands the knife to The Kid, and The Kid proceeds to thrust the knife in the pig's neck. The pig was then allowed to bleed out as it thrashed around the two puppies. The pig was not made insensible to pain, something apparent by the screams. The Kid later dragged the pig to the butcher area now located behind the new prefabricated house.

On this date, Sergio recommended horse meat as a way to combat anemia. Sergio bragged about the health benefits and told the investigator that he and his six-year-old daughter eat it regularly.

On March 4, 2020, at approximately 630pm, one ARM investigator visited "Location 3" to pick up horse meat from Sergio. The investigator parked outside "Location 3" called Sergio and waited for him to come out. Sergio was holding a grey garbage bag and approached the investigator's car and gave the investigator the bag. The amount of horse weighed in at about 6.4 pounds.

On March 10, 2020, a sample of the horse meat sent to ELISA Technologies, Inc for testing.

On March 12, 2020, ELISA Technologies reported a "Positive" result for their 500550 Raw Horse Species Elisa analysis.

On September 11, 2020, One ARM investigator returned to "Location 2" and found a whole new fighting rooster operation in addition to the continuation of illegal animal slaughter. The investigator saw some large rooster fight organizers such as Gallero Cubita from "Operation Cubita" on the property.

HIALEAH (CBSMiami) – A woman feeding stray dogs in a remote area of northwest Miami-Dade stumbled onto to the scene of a horrific horse slaughter.

Animal cruelty investigator Rachel Taylor said they found dozens of horses, or their parts, in various stages of decomposition in the area of 179th Street and 129th Avenue. All of the legs had been stripped of their meat. She said it looks like the animals were killed

"You've got horse hooves, bones, hips, these have obviously been here for a long time," she said pointing to an area under some trees.

Taylor, who works for the non-profit Animal Recovery Mission, said from the looks of it, the most recent kill was just a day or two ago. But that wasn't the worst of it.

She said they found, a short walk up the road, more dead horse remains, almost all of them next to feed bags.

Taylor said it's not uncommon to find animal remains in this area near US 27 and the county line.

"We've currently done about 20 investigations of horse slaughter here before today," Taylor said.

Miami-Dade Police combed the scene Wednesday looking for clues.

Taylor believes some of the horses are being killed for rituals and sacrifices, like in a photo she took showing a pot with horseshoes and other items with a horse head nearby.

Taylor is horrified by the extent of the killings.

"It's bad," Taylor said. "I think more attention needs to be put on this. It needs to be blasted out there. People can't get away with this."

Taylor suspects the horses were stolen, she said this is one of the worst cases she's ever seen.

"They're in every couple of feet, it's like this whole area is a graveyard," she said, "That's what's alarming to me."
